Luxia

Urban

LUXIA is the name that the Iberians gave to the river and iron mines of Rio Tinto in antiquity. The Rio Tinto / LUXIA Protected Landscape, is the largest open iron ore deposit in Europe, which was already exploited in 3000 BC. C. With the LUXIA collection we want to emulate, on the one hand, the hardness and chromatic range, how it came from the iron extracted from the mines, and on the other hand the lands of this place, to take them to the new homes. LUXIA is presented as a collection of eight different pieces and four colors: Corten, Titanium, Steel and Platinum, ideal for contemporary areas.

LUXIA es el nombre que los iberos daban al río y las minas de hierro de Río Tinto en la antigüedad. En el Paisaje Protegido Río Tinto/ LUXIA, se sitúa el mayor yacimiento de mineral de hierro a cielo abierto de Europa, que ya fuera explotado en el año 3000 a. C. Con la colección LUXIA queremos emular por un lado la dureza y gama cromática del hierro extraído de las minas, y por otro lado las tierras de este paraje, para llevarlos a las nuevas estancias. LUXIA se presenta como una colección de ocho piezas diferentes y cuatro colores: Corten, Titanium, Steel y Platinum, ideal para ámbitos contemporáneos.
